

Psychology

**MAY 31 – JUNE 30, 2019**

**Drug Use and Abuse in the UK and USA**  
**Psychology 499CA or 599CA, 6 hours**

This course provides an introduction to the behavioral, cognitive, social, personality, and neural factors underlying drug and alcohol abuse. Commonly abused psychoactive drugs will be discussed in detail. Approaches to prevention, treatment, and contemporary drug policies – and how these differ between the UK and the USA – will be discussed.
